

How to Create a New Window Layout

First, filter the list at Maintenance->Products to the type and panels and openers you want.

Home → Maintenance → Products

Actions	Product Name	All Views	Panels	Operators	Usage Condition
	4 Panel-2 Vents		4	2	1

1 - 1 / 1

<=Back Add Unsold Items

Prices Update Images From Layouts Validate Layouts Reset Cache

Family-Type ...Awning (Windows-PH) Refresh

Panel Count 4 Clear Filters

Operator Count 2

..if the list does not come up empty, you should use the add view  button.

..choose the the template that most closely matches what you want and fine-tune from there. Note you will be working in percentages – at quoting time the layout gets scaled to the actual window size.

Family - Type	Windows-PH - Awning						
Configuration	4 panels, 2 operators						
View Name							
Product	4:2:0:4 Panel-2 Vents		Modify 4 Panel-2 Vents				
Image	[upload]	Upload New Image	Browse...	No file selected.		Image Hints[+]	
Layout Size	100	x	100	inches			
Templates[-]							
	Panel	X →	Y ↓	W	H	%Extra	Std Sizes
1	E3000 A	0	0	25	100		
2	E3000 A	25	0	25	100		
3	E3100 Balanced Sash Picture	50	0	25	100		
4	E3100 Balanced Sash Picture	75	0	25	100
